

# Caring Exclusively for Seniors

## St. Vincent Senior Health Clinic

Today's families are facing unique challenges in providing care and support for elderly parents and loved ones. We understand your needs. That's why we tailor our senior health services to best accommodate your lifestyle. From convenient, easy-to-schedule appointments to full-service care in one location, we've designed a complete array of senior health services – *around you*.

lot of time, as well as unnecessary worry and concern. During the conference, patients and their family can ask questions, review medications and participate in developing a plan of care.”

*Comprehensive senior health care services in one convenient place*

“One thing that really sets us apart is our comprehensive foot clinic,” notes Elizabeth Johnson, APN. “We make sure our patients are getting appropriate preventative care for their feet.”

### Maintaining Health and Independence

St. Vincent Senior Health Clinic knows what it takes to keep your elderly loved ones as healthy and independent as possible – *for as long as possible*. Take a few minutes today to schedule an appointment; you'll be glad you took the time.

*At St. Vincent Senior Health Clinic, our complete focus is patient care on a personal level*

### The Priority Is Patient Care

When a health issue requires medical attention, you need answers as quickly as possible. “If an aging parent or elderly loved one needs to see a doctor, family members usually have to schedule appointments around their work and family obligations,” remarks St. Vincent Senior Health Clinic’s Dr. Gene Roudachevski. “We know that’s not easy, so we make sure new patients are seen as soon as possible. Our complete focus is patient care – on a personal level. We take a multi-disciplinary, team approach toward patient service, providing caregivers and their parents the opportunity to have a ‘round-table’ conference with the physician, nurse practitioner and social worker directly involved in their treatment. By offering extra time on our part, we save our patients a

### Complete Care – Conveniently

Scheduling an array of different appointments can delay recovery and take precious time away from daily activities, family obligations and work responsibilities. St. Vincent Senior Health Clinic provides comprehensive senior healthcare services in one convenient place, including:

- Alzheimer’s Disease Management
- Balance/Falls Assessment
- Depression Screening
- Diabetes Education
- Fitness Assessment
- Preventive Foot Care
- Hearing Loss Screening
- Osteoporosis Screening
- Parkinson’s Disease Management
- Urinary Incontinence Treatment
